

WHERE TO BUY A SET OF MOTOROLA 350R RADIOS

The FRS (Family Radio Service) walkie-talkies are the backbone of Four Seasons emergency communications. Since the incident command center will be located near or in the Lodge, Communicators will need a radio capable of reporting from their homes and neighborhoods, as to conditions and needs. Additionally, many of the emergency groups (e.g., Pet Rescue, First Responders, Survey, etc.) will need to be in contact with the Incident Command center. For these reasons, we recommend that you consider buying and keeping at-the-ready a set of Motorola FRS walkie-talkies. The Communications group will provide training in how to use the radios.

[The following FRS walkie-talkies are sold as 2-packs, with chargers, batteries, and belt clips]:

350R 35 mile range, weatherproof (yellow) ~\$79.00 - \$100

350 same as above, but not weatherproof ~\$59.00 - \$79

355 same as above, but not weatherproof ~\$59.00 - \$79 camouflage

356 same as above, but not weatherproof ~\$59.00 - \$79 camouflage, mic

(models advertising less than 35 mile range will probably not work adequately)

Examples of where to buy a Motorola 350 35 mile range FRS radios
